As an Arts student with a concentration in Game Art and Animation at the University of Texas at Dallas, I aspire to work in the gaming and animation industry, utilizing my skills in art and technology to create immersive, interactive experiences. I also aim to teach art to young students, fostering a love for creativity and community-driven expression.

EXPERIENCE

UNREAL ENGINE GAME CREATION

(4-WEEK TIMEFRAME)

- Designed and developed a fully functional puzzle game using Unreal Engine, focusing on gameplay mechanics, asset creation, and level design.
- Created 3D assets, including textures and models, to populate the game environment.
- Implemented logic and interactivity within the game, utilizing Unreal Engine's Blueprint scripting system.

TEAPOT MODELING AND TEXTURING ASSIGNMENT

(3-WEEK TIMEFRAME)

- Operations Improvement Project
 - Conducted research and modeled a realistic 3D teapot based on real-world references.
 - Applied textures and materials to accurately represent the surface properties, such as porcelain and metal, using Blender and SubstancePainter.

ANIMATION PROJECT: CALISTHENICS AND FINAL ANIMATION

(4-WEEK TIMEFRAME)

- Gathered research to create a realistic calisthenics animation.
- Rigged and animated a human character to perform a series of calisthenic exercises.
- Finalized the animation by refining movement and adding keyframes to enhance fluidity and realism.

EDUCATION

RICHLAND COLLEGE

DALLAS, TX

Associates of Science, Environmental Sciences

May 2023

THE UNIVERSITY OF TEXAS AT DALLAS

Dallas, TX

Bachelor of Arts, Game Art and Animation

December 2025

SKILLS

- Software & Tools: Photoshop CC, Maya, Unreal Engine, Blender
- Artistic & Technical Skills: Computer Animation, Modeling & Texturing, Rigging, Lighting & Composition
- Programming & Scripting: Python, Game Design, Project Management, Scripting
- Design: Concept Art, 3D Asset Creation, Visual Storytelling
